ABSTRACT

The data in this report are the summation of a questionnaire sent to all educational members of The American Assembly of Collegiate Schools of Business to ascertain information regarding minority students and faculty. As a result of this effort, 236 questionnaires were returned by member institutions; of this, 125 were from accredited institutions, 106 from nonaccredited institutions, and five were unknown. Statistical tables contain data concerning: undergraduate program enrollment, students expected to complete bachelors degrees 1972-73, enrollment in master's programs, expected graduates [MBA/doctorates] by major fields for 1972-73, minority faculty by field and rank, special programs, admission criteria, and financial assistance. INTRODUCTION

The data which follow are the summation of a questionnaire sent to all educational members of the American Assembly of Collegiate Schools of Business to ascertain information regarding minority students and faculty. As a result of this effort, 236 questionnaires were returned by member institutions; of this 125 were from accredited institutions, 106 from nonaccredited institutions, and five were unknown.

NOTES

Figures enclosed in parentheses ( ) are the number of institutions responding to specific matrix cells contained in questions A-1, A-2, B-1, A-2(a), C-1, D-1, I-4, and K-1.

Footnotes represent instances of double counting within the data. For example, if an institution reported having one Negro woman then the totals for both minority groups (Negro and women) were adjusted and a footnote entry was made.

ACKNOWLEDGEMENTS

AACSB wishes to acknowledge the efforts of Frank A. DeZoort, assistant professor of management, and William C. Flewellen, Jr., dean, College of Business Administration, University of Georgia, in compiling the data contained in this report.
